Fares Mohamed

Alexandria, Egypt | faresmohamed260@gmail.com | github.com/faresmohamed260
linkedin.com/in/fares-mohamed-b83454194 | **AI Engineer – Agentic AI, LLM Systems, Applied ML**

Summary

Computer Science graduate ranked first in class, building evidence-grounded AI systems, durable agent workflows, and production-minded AI products across NLP, generative media, and intelligent automation.

Experience

Armstrong 2023–2025
AI & Automation Engineer / Technical Content Creator (Part-time)

- Built AI-assisted pipelines for the Digital Egypt Cubs Initiative using n8n, custom GPTs, open-source models, scripts, and visual-generation tools to produce structured learning assets.
- Developed classroom-ready AI, robotics, Arduino, circuits, and programming curricula, guides, presentations, and videos.

Kayfa Aug–Dec 2025
AI Subject Matter Expert

- Authored implementation-focused ML lessons, assignments, and Python notebooks covering neural networks, CNNs, clustering, anomaly detection, and unsupervised learning.

Engineering for Kids-Egypt 2023–2025
AI & Robotics Instructor (Seasonal)

- Taught students aged 11–16 AI, robotics, Python, C++, Arduino, and circuits through project-based programs.

Selected Projects

S.A.G.A. – Narrative Intelligence Platform
Python, NLP, FastAPI, LangGraph, Supabase/Postgres, B2

- Architected a web-first, local-analysis platform for evidence-linked characters, dialogue, events, relationships, state, and time; built durable jobs/provenance and provider-neutral evaluation contracts.
- Measured deterministic quote detection at 0.8563 F1 and a BookNLP event-trigger challenger at 0.7791 F1 while keeping experimental evidence separate from adopted product truth.

RenderLab – AI Image/Video Creative Workspace
Next.js, React, TypeScript, Supabase, R2, ComfyUI, Modal

- Built a production-domain closed beta with server-owned generation reconciliation, durable media, retry/cancel/failover, continuation actions, owner-scoped accounts, MFA, sessions, exports, and guarded releases.

Fares Uniform – Experimental ERP & Public Website
Odoo 19, Python, Next.js, PostgreSQL, Playwright

- Engineered bilingual offline POS, preorders/payments, production and B2B workflows plus a separate public-site track; verified 149 Odoo tests, seven-addon upgrades, 8/8 browser journeys, UAT, recovery, and staging observability.

DUM-E – ESP32 Robotic Arm Platform
Python, C++, ESP32, Streamlit

- Built calibration, manual control, controller mapping, sequence recording, and FK/IK-assisted pick-and-place workflows.

Education

Alexandria University, Faculty of Computer and Data Science 2022–2026
B.Sc. Computer Science (Intelligent Systems) | **Class Rank: 1st**

Skills

AI: LangGraph, LLM orchestration, tool calling, structured outputs, RAG, NLP, computer vision, diffusion workflows
Engineering: Python, C++, FastAPI, Next.js/React, SQL, Docker, pytest, Playwright, REST APIs
Data/Cloud: PostgreSQL, Supabase, pgvector, Backblaze B2, Cloudflare R2, Modal, Vercel, n8n | **Languages:** Arabic, English

Leadership & Certifications

Head of AI Committee, ElCoder – Led AI/ML workshops. | Machine Learning Specialization | Deep Learning Specialization | Google Cloud Big Data & ML Fundamentals
